

Why Choose The... CarDAQ-ProTM?

Your Ultimate Companion Tool To Work
Alongside Your Current Diagnostic Equipment!

Multi-Brand
J2534 Coding &
Programming

Fix More Vehicles, Keep More Jobs Inhouse

-  OE Pass-Thru level Coverage, Multi-Brand, all models for supported brands.
-  Save Time & Money - Finish more jobs in-house. No waiting on third-party services. Complete work faster & improve customer satisfaction.
-  Future-Proof Tech - Latest standards & protocols included so you're ready for upcoming vehicles.
-  Support You Can Trust - Real help from brand specific master-techs who do this every day. Detailed guidance, live support when needed.

An Overview Of The CarDAQ-ProTM

With CarDAQ-ProTM, your workshop gets the power to do more; handling complex diagnostics, coding, programming & more - all within one device! No more sending cars away or turning down jobs just because your current diagnostic equipment doesn't cover what you require. We've built in the latest protocols and remote access technology so your business can stay ahead.
